March 23rd, 2016

**Chief Chat** – Thank you to all who have submitted proposals to present at the 2016 Kansas Immunization Conference. The agenda is shaping up to be another great conference with increased participation and many great presentations. One of the new events we are planning for this year in direct response to feedback participants provided last year is to have a “Vaccine Manufacturers Round Table”. This event will occur at the end of the day on Wednesday of the conference. The event will include appetizers along with an opportunity to network with the vaccine representatives but most importantly will allow for brief presentations from each of the companies specifically about their vaccines. All vaccine manufacturers have been invited to participate in this event and participation does not indicate any endorsement by KDHE. We encourage all to plan to attend this event and assure you it will be enlightening but will also end early enough to assure you have time to go out for dinner and a nice evening as well.

## VFC Question of the Week-

**Q:** What should be reported to VAERS?

**A:** Vaccine Adverse Event Reporting System (VAERS) encourages reporting of any clinically significant adverse event that occurs after the administration of any vaccine licensed in the U.S.

- Any health event listed by the vaccine manufacturer as a contraindication to subsequent doses of the vaccine.
- Any event listed in the Reportable Events Table that occurs within the specified time period after the vaccination.  
(Reportable Events Table can be found in the Pink Book 13<sup>th</sup> edition, Appendix D-2.)

### DID YOU KNOW

Anaphylactic allergy to a vaccine component (such as egg or neomycin) is a true contraindication to vaccination. If an allergy to a vaccine component is not anaphylactic or is not severe, it is not a contraindication to that vaccine. References: Pink book 13<sup>th</sup> edition- pg. 26, Appendix A-28 and A-29  
Guide to Contraindications and Precautions to Commonly Used Vaccines.

## Influenza Surveillance-

A slight decrease in Influenza-like illness was reported by the Influenza-like Illness Network (ILINet) sites, but influenza activity is still elevated in Kansas. During the week ending March 19th, ILINet sites reported 2.5% of visits were due to influenza-like illness. Influenza-like illness is defined as a fever (> 100 degrees F) and the presence of a cough and/or sore throat. ILINet sites also submit up to two specimens for testing at the Kansas Health and Environmental Laboratories (KHEL). To date, KHEL has confirmed 80 positive influenza specimens including 60 A/H1, 8 A/H3, 10 B, and 2 influenza A specimens that were not subtyped. Stay updated on influenza activity in Kansas at [www.kdheks.gov/flu/surveillance.htm](http://www.kdheks.gov/flu/surveillance.htm).

## Vaccine Redistribution

Please email any additions or changes to be made on the Vaccine Redistribution lists with subject matter "Redistribution" to [vaccine@kdheks.gov](mailto:vaccine@kdheks.gov) or call toll free at 1-877-296-0464

[http://www.kdheks.gov/immunize/vaccine\\_redistribution.htm](http://www.kdheks.gov/immunize/vaccine_redistribution.htm)

**REMINDERS:** Providers may place the excess doses on the KIP Redistribution list if:

- 1) The vaccine has a minimum of 90 days and a maximum of 365 days before the vaccine's expiration date;
- 2) The ordering provider is responsible for any doses which expire on the redistribution list that have not been accepted for transfer to another VFC provider;
- 3) Providers accepting vaccine from the redistribution list are responsible for using the doses once they are transferred. KIP encourages providers to accept only doses they can administer before the expiration date;
- 4) The transferring and receiving provider will document these doses on their monthly MIR/reconciliation reports as transferred vaccines.
- 5) Once vaccine is transferred please contact KIP to let us know so we can adjust the redistribution list by either deleting the line or by reducing the amount of doses.
- 6) All vaccines must be in full boxes
- 7) The KIP nurse consultant who is on call must be contacted prior to transferring vaccine
- 8) Providers are responsible for keeping KIP notified if there is a change in amount of doses available for redistribution.
- 9) When placing an order, you may be contacted if the vaccine you are trying to order is on the redistribution list.
- 10) Varicella and Proquad, will not be posted on the VFC or Private Vaccine Redistribution List. Frozen Varivax vaccines are very intolerant to out of range temperatures. To prevent potential vaccine waste the Kansas immunization Program requests that Varivax containing vaccines not be transferred to other providers. Questions regarding transporting vaccine call 877-296-0464 to request assistance.

If you plan to attend, kindly make every effort to arrive by the designated start time and to remain through the duration of the program. Please be advised that late arrivals may be prohibited from participating in the event.

**Notice:** This event is conducted in accordance with the PhRMA Code on Interactions with Healthcare Professionals (HCPs) and is limited to invited HCPs and appropriate non-HCP staff. Please note that for out-of-office programs, only HCPs (as defined by Pfizer policy) may attend. Before providing an RSVP or attending an out-of-office program, please confirm with your Pfizer representative that you meet the definition of "HCP" and any other requirements of attendance. Attendance by guests or spouses is not appropriate for any Pfizer speaker program unless the individual independently qualifies as an appropriate attendee. In addition, Pfizer policy prohibits attendance by HCPs who practice in a specialty for which the relevant Pfizer product does not have an FDA-approved indication and prohibits attendance by Pfizer speakers who have been trained on the product or topic to be presented.

**State and Federal Employees:** State and federal laws and regulations may limit your ability to receive meals. By attending this event, you confirm that you have obtained any necessary approvals from your employer.

**Public Disclosures:** The cost of meals provided to U.S. HCPs is subject to Pfizer's national public disclosure policy as well as applicable state and federal law such as the National Physician Payment Transparency Program (otherwise known as "Sunshine"). Pfizer's disclosure allocates the cost of meals equally across all attendees who have not opted out of receiving a meal or have consumed a meal regardless of opt-out status.

**State Law Restrictions:** Regardless of where you practice or reside, if you are an HCP who is licensed in Vermont or Minnesota, or an employee/agent of a Vermont HCP (e.g., PAs, non-prescribing nurses, etc.), you may not attend this event.
